

Dear colleagues and partners,

The project Accounting Rules for the Achievement of the Mitigation Goals of non-Annex 1 countries of the GIZ, and the Partnership on Transparency in the Paris Agreement (PATPA) invite you to participate in

the free webinar series

Tracking NDC achievement New accounting perspectives

This webinar series invites all climate practitioners to share views about the design of GHG accounting for the NDCs, as introduced by the Paris Agreement (Article 4.13). The main purpose of the series is to share technical experiences from the pilot activities of the project, in order to help build a common understanding of the new accounting concept and requirements, without prejudging ongoing negotiations of the subject.
